PT Telkom Akses / Web Developer
OCTOBER 2019 - NOW, JAKARTA

In this company, I was working as a Web Developer onsite. Most of my web app was built with the Codeigniter Framework, PHP, and PostgreSQL/MySql. For some reason, I was picked to create a mobile app too with Flutter and GoLang.

Silsilah Online / Full Stack Developer
SEPTEMBER 2019 - DECEMBER 2021, REMOTE

I have a remote project too as a Full Stack Developer. In this project, I built a website such as a Family tree. I did all of the development and some maintenance. I use CodeIgniter Framework, PHP, and MySQL in this project. https://silsilahbugismakassar.com/

Binus Online University / Bachelor of Computer Science
MARCH 2020 - NOW, JAKARTA

I am studying at this university with online classes. My current GPA is 3,84.

Telkom Vocational High School / Software Engineering
JULY 2016 - JUNE 2019, CENTRAL JAVA

I learned about Software Engineering in this school. I took the first place for the best student when I graduated
